Official JDK Designs website. No app or account required.

1. Check your shipment

Compare the packing list with the display components and report missing or damaged items.

2. Confirm your configuration

Freestanding T-legs and wall mounting use different hardware. Locate the instructions supplied for your display.

3. Get the matching assembly details

If the fastening diagram, tools list or wall-specific instructions are missing, contact Jim before assembly.

4. Send a finished-display photo

After setup, send Jim front and side photographs for a review before stocking for customers.
